The screenshot shows the Capterra website interface for the GAS MANager software review. The header includes the Capterra logo, a search bar with the text "Find the right software", and navigation links for "Categories", "Compare", and "Write a review". On the right, there are links for "For vendors" and a "Join or Log in" button. The breadcrumb trail indicates the path: "Utility Billing Software > GAS MANager". The main title of the review is "GAS MANager Software Review 2026: Features, Reviews, Integrations, Pros & Cons", with a sub-note "Last updated on June 3, 2026". Below the title, it states "Provider data verified by our Software Research team, and reviews moderated by our Reviews Verification team. [Learn more](#)". A horizontal menu contains tabs for "Description", "Use cases" (which is active), "Alternatives", "FAQs", "Features", "Pricing", and "Support". The "Use cases" section is titled "What is GAS MANager?" and contains the text: "Since the release of GAS MANager in 1997, the software has been expanded to allow for the management of additional information that is not directly required in the preparation of gas bills, but is important in the operation of a natural gas co... [Read more](#)". Below this, another section is titled "What is GAS MANager used for?" with the sub-heading "Utility Billing". To the right of the text, there is a box containing the "Overall rating" section, which shows "Based on 0 user reviews" and a rating of "0.0" with five empty star icons. Below the rating is the "Reviews sentiment" section, which includes a horizontal bar chart with three categories: "Positive", "Neutral", and "Negative", each with a minus sign below it. A "Write a review" link with a pencil icon is located at the top right of the rating box.
